

Strategic Plan Snapshot

2005/2006

MISSION

Protect Californians and their environment by:

- Protecting lives and property from earthquakes and landslides.
- Ensuring safe mining, and oil and gas drilling.
- Conserving California's farmland.
- Saving energy and resources through recycling.

GOALS

ONE

Protect the natural environment and public health and safety by enforcing responsible mining, timber, petroleum, and geothermal activities.

TWO

Mitigate the impacts of earthquake and other geologic hazards by collecting, processing, analyzing and disseminating critical hazard information in a timely manner.

THREE

Increase beverage container recycling and ensure the long-term availability of agricultural land and minerals.

FOUR

Deliver the highest quality service to the citizens of California through the expertise and work of Department employees.

VISION

With a diverse mission, the people of the Department of Conservation are highly motivated, nationally recognized leaders in vital, creative, innovative, resourceful and cost-effective public service. We are passionate about our duty to public safety and protecting the environment.
